FOREWORD

National Health Data Dictionary (NHDD) is the health component for Public Sector Data Dictionary (PSDD) / Data Dictionary Sektor Awam (DDSA). Any health component definition that is developed by Ministry of Health (MoH) for NHDD will be adopted into DDSA. DDSA is managed by Malaysian Administrative Modernisation and Management Planning Unit (MAMPU).

The first NHDD was developed in 2003 by MoH and was made available to the Health Informatics industry. The objectives of NHDD are to; provide semantic understanding of data elements used in health care industry; conform to nationally accepted protocol standards; and to be consistent with international standards wherever applicable. This first NHDD document was then published in 2007. It consists of minimum required dataset for demographic data collection, which was known as Person Record Dataset.

Series of workshops involving various stakeholders were then conducted in the development and revision of this NHDD. A total of 11 NHDD datasets were made available online on MoH's website in 2012 namely; Revised Person Record Dataset; Discharge Summary Dataset; Emergency Dataset; Cancer Dataset; Radiotherapy & Oncology Dataset; Nuclear Medicine Dataset; Obstetric & New born Dataset; Oral Health Dataset; Pharmacy Dataset; Forensic Dataset and; Mental Health/ Psychiatry Dataset. In 2012, NHDD was renamed as Malaysian Health Data Dictionary (MyHDD) and it incorporates Patient Registries and the Health Reference Data Model.

This MyHDD's development work has received attention from international agencies. Healthcare Information Technology Standards Panel (HITSP) has acknowledged MyHDD's content to be similar with their health data dictionary. Meanwhile, Joint Learning Network for Universal Health Coverage (JLN) was impressed with the consensus-driven methodology and has invited Health Informatics Centre, Planning Division to present MyHDD in their international workshops and also published MyHDD's content on their website (Openhdd.org).

MoH would like to acknowledge to all members who were involved in the preparation of MyHDD and hopes that all health related application developers will use MyHDD in their ICT system development. This will ensure the improvement in health data analysis and report generation in Malaysia.

A handwritten signature in black ink, appearing to read 'fhr', with a long horizontal line extending to the right.

DATUK DR NOOR HISHAM B ABDULLAH
DIRECTOR GENERAL OF HEALTH, MALAYSIA

INTRODUCTION

INTRODUCTION

1.1 Purpose

The purpose of this document is to provide standard definition and description of data elements that would be used in the capture of health & health related information.

1.2 Background

a. Malaysian Health Data Warehouse (MyHDW)

To meet the diverse needs of timely health information provision and management, the MyHDW project was commenced in May 2011 under the supervision of an appointed consultant. MyHDW is defined as ‘a trusted source of truth of comprehensive healthcare data structured for query and analysis purposes’. The MyHDW also acts as a platform for standardization and integration of health data from a variety of sources.

To support the development of MyHDW, Health Informatics Centre, Planning Division with the appointed consultant developed the Malaysian Health Data Reference Model (MyHRDM) as part of MyHDW’s data architecture. The MyHRDM requires certain key data elements to fully describe a concept within a data model or because critical to the use of a concept in practical application. These data elements are managed within the MyHDD initiatives.

b. Vision for Health

The health services of the future are envisioned to provide a seamless care in a care network environment with individual playing a greater role toward his/her health. Therefore, the vision for health aspires that...

“Malaysia is to be a nation of healthy individuals, families and communities, through a health system that is equitable, affordable, efficient, technologically appropriate, environmentally adaptable and consumer friendly, with emphasis on quality, innovation, health promotion and respect for human dignity and community participation towards an enhanced quality of life.” (Ministry of Health 1996)

1.3 ICT in Healthcare

The advent of Information and Communication Technology (ICT) has revolutionized the health care delivery system. Real time clinical information sharing has led to greater efficiency and effectiveness in person management. Rapid access to an individual’s ‘total’ record, including instantaneous retrieval of results facilitates decision making and improves quality and patient safety. The Telehealth journey in the Ministry of Health (MoH) started with the development of the Telemedicine blueprint and the National Telehealth Policies. The MoH in leveraging the use of ICT as an enabler to improve the service delivery, conceptualized the “Health System of the Future”, characterized by the provision of continuous, seamless care tailored to the needs of the individual. The ICT initiatives that were subsequently planned were aimed at providing integration through the Lifetime Health Record.

1.4 Health Informatics Standards

In ensuring that integration is made possible at the data level MoH has initiated on the development of Health Informatics Standards to be used by the health sector ICT stakeholders. Clinical information encompassing details, such as, diagnosis, laboratory, imaging and surgical procedures and medications will be made available across healthcare settings to ensure enterprise wide person management. In the development and adoption of Health Informatics Standards for the country, references were made to several international and local standards.

MALAYSIAN HEALTH DATA DICTIONARY (MyHDD)

2.1 MyHDD: General Definition

Glossary of standardization data elements for health and health related information.

2.2 Definition of Related Terminologies

2.2.1 Data Set is the collection of data elements.

2.2.2 Data Element is the data item, with specific attributes and values. It will have standard field names, values, field properties and other relevant descriptions.

2.3 Objectives

2.3.1 To make available MyHDD for use by individuals and organizations involved in the generation, capturing, storage and use of health and health related information;

2.3.2 To provide semantic understanding of data elements used in health care industry;

2.3.3 To ensure uniformity, reliability and consistency in the data to facilitate information gathering and sharing;

2.3.4 To conform to nationally agreed protocols and standards;

2.3.5 To be consistent with international standard wherever possible.

2.4 Strategy for Development

2.4.1 Identify stakeholders

2.4.2 The scope and deliverables of MyHDD was determined by larger consensus group

2.4.3 Stakeholders to determine the standard data sets and elements for use in person record, health condition and event summary including hospital and outpatient visit.

2.4.4 Consensus driven methodology

2.4.5 Reviewing existing standards

2.4.6 Referring to appropriate references

2.4.7 Endorsement by National Health Informatics Committee

2.5 Rationale

2.5.1 The Ninth Malaysia Plan (9th MP) has emphasized on reducing disease burden and improve health care delivery through consolidation

- 2.5.2 The Ninth Malaysia Plan (9th MP) also proposes a targeted approach by focusing on National Health Priorities
- 2.5.3 Lack of standardized data for evidence based planning and outcomes management
- 2.5.4 Need to have standardization of data elements and values to facilitate continuity of care through LHR services
- 2.5.5 The extent and quality of discharge summaries in MOH hospitals are varied
- 2.5.6 Currently, standardized format for outpatient care and management documentation is available for selected conditions, pregnancy and newborn care, perinatal care, child health care and diabetic and management
- 2.5.7 HIC returns for measuring outpatient morbidity is based on a crude method of calculation hence giving rise to data integrity issues

2.6 Proposed MyHDD Scope and Structure

The following diagram shows a proposed MyHDD Structure by MAMPU in April 2012 NHDD Workshop. The highlighted boxes are data sets that were developed and available in this document. Data sets will be continuously reviewed, developed and expanded with the progress of MyHRDM.

2.7 Data Specifications of MyHDD

Data element :		
1	ID #	Version #
2	Date Created	
3	Date Updated	
4	Synonyms	Alternate names used for the data element
5	Translation of data element	Equivalent term in Bahasa Malaysia
6	Description	Defines the data element including the purpose
7	Description 2	Additional definition of the data element including the purpose
8	Data element type	Describes the purpose of the data element as mandatory, optional or recommended
9	Field property / Data Type for value	Numeric, alphanumeric, text, date, sign, symbols, derived / calculated
10	Field Size	Length of characters
11	Value selection / capture method	i) for alphanumeric data : Type in, select from a short list, select from a search list ii) for numeric data : barcode, scanning, sensing, swiping, type in
12	Values/ Codes for values	Reference values / codes according to national and international standards
13	Value Source	Source where the data value/codes originate from.
14	Comments	Description of data element not included in item (4) to (13), or additional comments to qualify / explain / clarify

2.8 Look-Up Tables

The values for the codes as per national and international standards are provided in the look up tables

2.9 Clients

- 2.9.1 MyHDD will be used as a basis for collecting data for Health Information Management
- 2.9.2 MyHDD will be used by all solution providers in developing their system for Health Information System.
- 2.9.3 For non-IT based hospitals /clinics the Medical Record Departments /personnel will utilize this information for **submission of reports**

2.10 Organization Structure

- 2.10.1 HIC will be the custodian for the development and maintenance of the MyHDD
- 2.10.2 HIC will provide domain and technical expertise for the development and review of the contents of MyHDD

- 2.10.3 A MyHDD Expert Group with members comprises of all stakeholders will be responsible for the coordination of development and updating of respective data elements.
- 2.10.4 Special Interest Groups (SIG) for specific areas will be formed based on the topic, e.g. Diabetes SIG will be responsible for development and updating of diabetic data set and data dictionary
- 2.10.5 National Health Informatics Committee will be the national body responsible for the approval and endorsement of developments and updates to MyHDD

2.11 Maintenance and Updates

- 2.11.1 The content of MyHDD will be continuously reviewed and if any changes are found necessary, the stake holders will convene to study the requirement and proposed changes.
- 2.11.2 The change process will be coordinated including version updates and maintenance by HIC.
- 2.11.3 For specific data sets where there are changes made by the expert group, e.g. immunization record, the changes would be sent to HIC to make the changes and version updates.
- 2.11.4 All version updates will need to be approved by the Health Informatics Committee.
- 2.11.5 Telehealth Unit will be responsible for the review and changes in content of LHR data set. However, HIC will be responsible for the version update

DATA ELEMENT LOOKUP TABLE

NOTES

This NHDD is a continuation from MyHDD Data Element List Version 2013.

All the data elements with look up table are included in this edition except for the followings:

1. Chemotherapy regime(refer EVIQ website)
2. MDC (Malaysia drug council)
3. SNOMED CT (Systematized Nomenclature of Medicine--Clinical Terms)
4. ICD 0 (The International Classification of Diseases for Oncology)
5. ICD 10 (The International Statistical Classification of Diseases and Related Health Problems 10th Revision)
6. DDSA (Data Dictionary Sektor Awam)

4Z	Must drink plenty of water during therapy	Minum Air Yang Banyak Ketika Rawatan
5A	Not to be consumed	Jangan Makan/Minum
5B	Not to be swallowed	Jangan Telan
5C	NS, DW5, MANNITOL : 15-25C = 3hrs 15-25Cor 2-8C =14 hrs	NS, DW5, MANNITOL : = 3jam Atau 2-8C = 14jam
5D	Once a week	Sekali Seminggu
5E	Once open use within 24/48 hours	Gunakan Dalam Masa 24/48 Jam Setelah Dibuka
5F	Pour 1 teaspoon to 500 ml of hot water. Inhale the vapour	Campur 1 Sudu Teh Ubat Ke Dalam 500ml Air Panas. Sedut Wapnya
5G	Protect from direct sunlight	Lindungi Ubat Dari Cahaya
5H	Protect this medicine from light	Lindungi Ubat Dari Cahaya
5I	Protect this medicine from moisture and light	Lindungi Ubat Dari Cahaya Dan Kelembapan
5J	Rinse after 2-3 minutes of application	Cuci Selepas 2-3 Minit Ubat Disapu
5K	Rinse mouth after inhalation	Bilas Selepas Disedut
5L	Rinse mouth and throat after use	Kumur Dengan Air Selepas Sedut
5M	Rub onto hair and wrap hair. Wash off after 12 hour	Sapu Pada Rambut Dan Balut Kepala. Cuci Selepas 12 Jam
5N	Shake well before use	Goncang Sebelum Guna
5O	Should Not Take Until At Least 12 Months After Last Natural Period	Tidak Digalakkan Mengambil Sekurang - Kurangnya 12 Bulan Selepas Hari Terakhir Haid
5P	Spray Into The Nostril	Sembur Ke Dalam Ruang Hidung
5Q	Stop Taking This Medication If Allergy Reaction Occurs	Berhenti Makan Ubat Ini Jika Ada Kesan Alahan.
5R	Swallow The Tablet Whole With A Full Glass Of Water.	Telan Ubat Bersama Segelas Air.
5S	Take 30 Minute Before Food Or 2 Hours After Food	Ambil 30 Minit Sebelum Makan Atau 2 Jam Selepas Makan

Data Element Lookup Table

5S	Take As Directed	Ambil Seperti Yang Diarahkan
5U	Take As Directed And Finish The Medication	Makan Ubat Seperti Yang Diarahkan Hingga Habis
5V	Take At Regular Intervals	Makan Ubat Ini Pada Selang Masa Yang Ditetapkan
5W	Take Medicine As Directed	Ambil Ubat Seperti Diarahkan
5X	Take Plenty Of Water	Minum Banyak Air
5Y	Take Regularly And Complete The Course As Directed	Makan Pada Masa Ditetapkan Dan Habiskan Ubat Ini
5Z	Take With Fatty Meals	Ambil Bersama Makanan Berlemak
6A	Take With Fluids	Ambil Bersama Air
6B	Take With Food Or Milk	Ambil Bersama Makanan Atau Susu
6C	Take With Food. Stop Taking If Allergic Reaction Occurs	Ambil Bersama Makanan. Berhenti Makan Ubat Jika Alami Alahan
6D	Take With Full Glass Of Water	Ambil Bersama Segelas Air
6E	Take With Plenty Of Water Or Juice	Ambil Bersama Banyak Air Atau Jus
6F	To Be Chewed	Untuk Dikunyah
6G	To Be Chewed Or Sucked	Kunyah Atau Hisap Ubat Ini
6H	To Be Chewed. Do Not Swallow Whole Tablet	Untuk Dikunyah Sebelum Telan
6I	To Be Gargled. Do Not Swallow Solution	Untuk Dikumur. Jangan Telan
6J	To Be Injected Between 15-30 Mins Before Meal	Suntik 15 - 30 Minit Sebelum Makan
6K	To Be Instilled Into The Ears	Titis Dalam Telinga
6L	To Be Instilled Into The Eyes	Titis Dalam Mata
6M	To Be Mixed With Chocolate Milk Only	Campur Ubat Dengan Minuman Bercoklat Sahaja
6N	To Be Sucked	Hisap Ubat Ini
6O	To Be Swallowed Whole, Not Chewed/Crush	Telan Ubat Tanpa Mengunyah
6P	To Be Swallowed Whole. May Alter Colour Of Urine Or Stool	Telan Ubat. Boleh Mengubah Warna Najis Atau Kencing
6Q	To Be Swallowed. Do Not Take With Antacids Or Milk	Untuk Ditelan. Jangan Ambil Bersama Antasid Atau Susu
6R	To Be Taken After Food	Diambil Selepas Makan
6S	To Be Taken At The First Bite Of Food	Diambil Bersama Makanan, Sebaiknya Sejurus Selepas Suapan Pertama
6T	To Be Taken Before Food, With Empty Stomch	Diambil Sebelum Makan/Perut Kosong
6U	To Be Taken Consistently In Regard To Time Of Day And Meals	Makan Ubat Pada Waktu Yang Sama Setiap Hari
6V	To Be Taken With Or After Food With Plenty Of Water	Makan Bersama/Selepas Makan Dan Minum Banyak Air
6W	To Be Taken With Or Without Food	Diambil Bersama Atau Tanpa Makanan

Data Element Lookup Table

6X	To Be Taken Within 30 Minutes, Before Food	Diambil 30 Minit, Sebelum Makan
6Y	To Be Used As Dressing, Soak Or Bath.	Untuk Digunakan Sebagai Ubat Cuci, Rendam Atau Mandi.
6Z	To Be Used Only In The Treatment Of Paracetamol Poisoning	Untuk Digunakan Dalam Rawatan Keracunan Paracetamol
7A	Upon Discontinuation Of Escitalopram Therapy, Gradually Taper Dose	Kurangkan Pengambilan Ubat Secara Berperingkat
7B	Use As Directed	Guna Seperti Diarahkan
7C	Use As Directed. Complete The Whole Course	Guna Seperti Diarahkan. Makan Sehingga Habis
7D	Use As Directed. Shake Well Before Use	Guna Seperti Diarahkan. Goncang Sebelum Guna
7E	Use As Directed. Contact Doctor If Allergic Reaction Occurs	Guna Seperti Diarahkan. Jumpa Doktor Jika Alami Alahan
7F	Use As Directed. Contact Doctor If Nasal Irritation Develops	Guna Seperti Arahan. Jumpa Doktor Jika Irritasi Pada Hidung
7G	Use As Directed. Handle Medicine With Spoon	Guna Seperti Diarahkan. Gunakan Sudu Untuk Mengambil Ubat.
7H	Use As Directed. May Stain Skin And Clothing	Guna Seperti Diarahkan. Boleh Mengotorkan Kulit Dan Baju
7I	Use As Directed. Wash Hand Before Applying	Guna Seperti Yang Diarahkan. Basuh Tangan Sebelum Guna.
7J	Use For Bath	Guna Untuk Mandi
7K	Use Immediately After Reconstitution	Guna Serta-Merta Selepas Rekonstitusi
7L	Use Non-PVC Tubing For Infusion	Gunakan Tiub Bukan PVC Untuk Infusi
7M	Use Once Or Twice Weekly	Guna Satu Atau Dua Kali Seminggu
7N	Use Protective Equipment	Gunakan Peralatan Perlindungan
7O	Use/Take As Directed. May Cause Irritation Develops	Guna Seperti Yang Diarahkan. Boleh Sebabkan Kecacatan Pada Kandungan
7P	Wash After 24 Hours	Cuci Selepas 24 Jam
7Q	Wash Hands Before Applying	Cuci Tangan Sebelum Guna
7R	Wash Hands Before Applying. Do Not Touch Application's Tip	Cuci Tangan Sebelum Guna. Elakkan Tersentuh Bahagian Hujung Aplikator
7S	Wash Hands Before Applying. Do Not Let Tip Of Applicator Touch Eye	Basuh Tangan Dan Pastikan Aplikator Tidak Tersentuh Mata
7T	Wash Hands Before Using	Basuh Tangan Sebelum Guna
7U	Wash Hands Before Using. Lie Down To Insert Into Vagina	Basuh Tangan, Baring Dan Masukkan Ke Dalam Vagina.

Data Element Lookup Table

7V	Wet Hair. Massage 15ml To Wet Hair And Rinse Thoroughly	Basahkan Rambut.Gosok 15ml Dan Bilas Bersih Keseluruh Kepala
7w	Stand Or Sit Upright For At least 30 Minute And Do Not Lie Down Until After Food	Berdiri Atau pun Duduk Tegak Jangan Baring Sehingga Sekurang-Kurangnya Selama 30 Minit Dan Selepas Makan
